

Reaching a New Energy Sciences Workforce (RENEW)

Building foundations through undergraduate and graduate training opportunities for students and institutions historically underrepresented in the SC research portfolio

- Cross-organization initiative (8 Office of Science Program Offices in FY 2022)
- \$30 million appropriated in FY 2022; \$60 million requested in FY 2023 (doubling)
- Hands-on experiences gained through RENEW will open new career avenues for a future pool of talented scientists, engineers, and technicians with the critical skills to advance the SC mission.
