19. Question: Can you please clarify what types of terminated contracts should be included in Factor C? Should we only include those terminated for cause? Or should we include contracts recently terminated based on cancellations due to Executive Orders. Also, please confirm we only include contracts and not grants or cooperative agreements.

Answer: Any and all Government contracts terminated (partially or completely) should be included on the list. In accordance with Section L.5(3), the list should include, in part, the reason for the termination. This requirement is only for contracts and does not extend to financial assistance agreements.
