

DOE Young Professionals Panel

Sharing a few thought on the journey in the global innovation landscape

Dr. Christina Lampe-Onnerud

CEO Cadenza Innovation

June 8th, 2021

A powerful idea takes root

What should one do differently to develop a safe, powerful, environmentally-sound Li-ion technology?

Which problem/industry is most urgently in need of new solutions?

Significant market drivers

- Climate change
- Oil independence
- Energy security
- Un-tethered mobility
- Utility asset utilization
- Government incentives
- Societal awareness
- Technology innovations

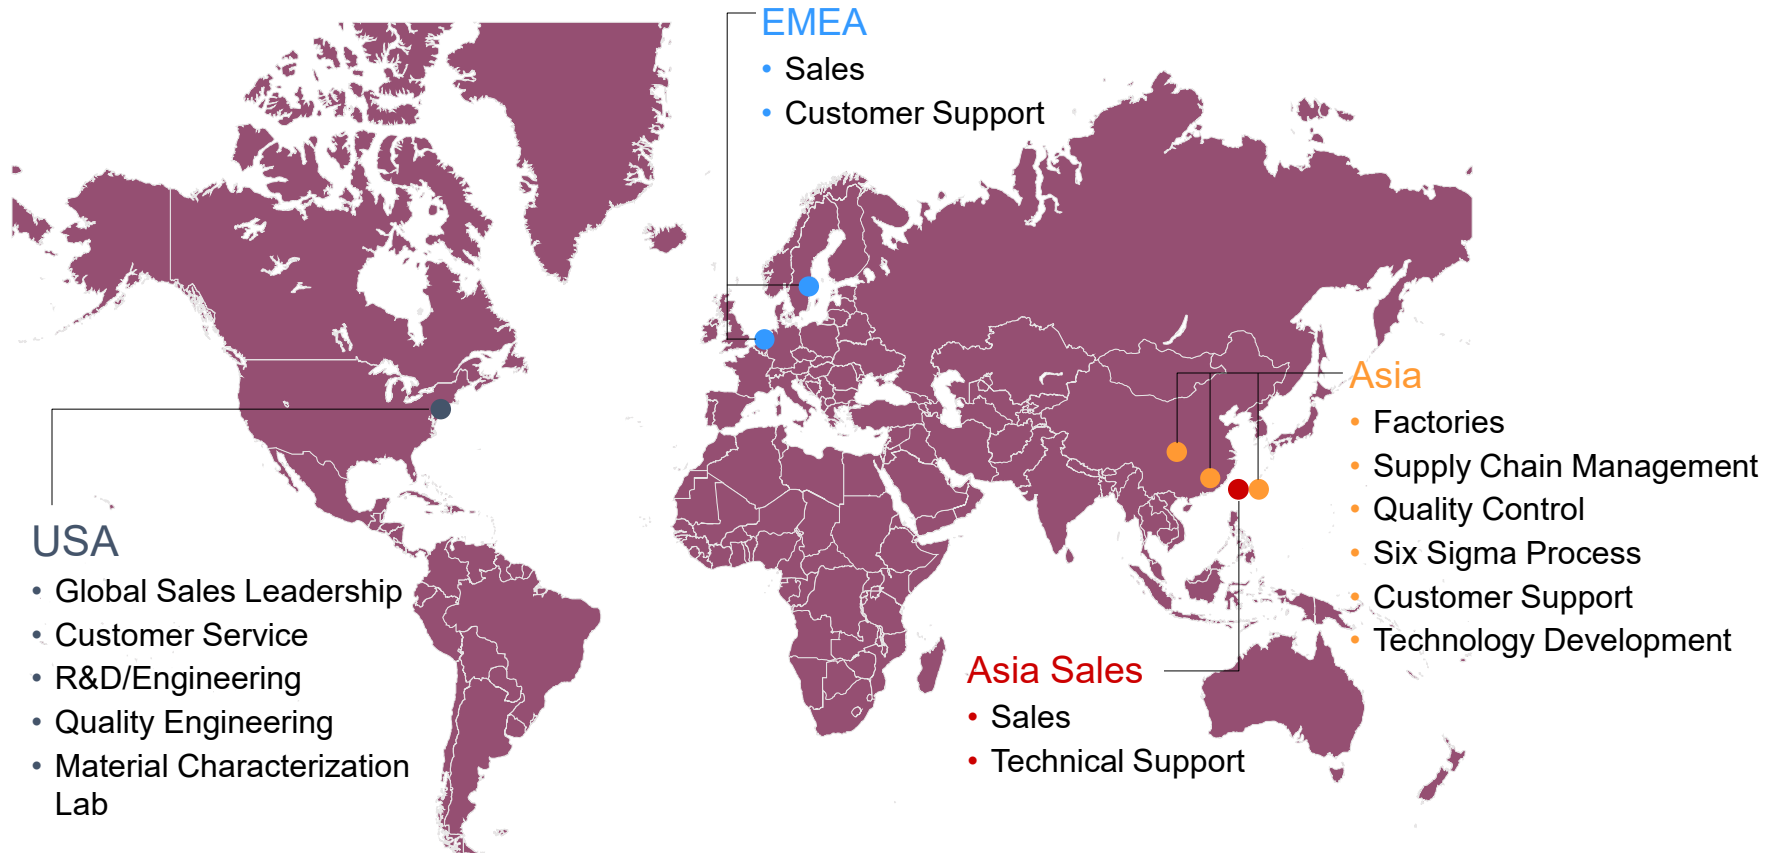

Total technology focus

- Manufacturing focus
- IP focus
- Development focus
- Quality focus
- Partner focus
- Certifications

Global engagement
