

DEPARTMENT OF ENERGY

Proposed Appropriation Language

Energy Supply, Research and Development

For expenses of the Department of Energy activities including the purchase, construction and acquisition of plant and capital equipment and other expenses incidental thereto necessary for energy supply, research and development activities, and other activities in carrying out the purposes of the Department of Energy Organization Act [(Public Law 95-91)] (42 U.S.C. 7101, et. seq.), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or expansion; purchase of passenger motor vehicles (not to exceed [35] 15, of which [23] 14 are for replacement only), [\$2,961,903,000] \$3,188,453,000, to remain available until expended[: Provided, That the \$7,500,000 provided in the Energy and Water Development Appropriations Act, Fiscal Year 1991 (Public Law 101-514) available only for the modification and operation of the Power Burst Facility at the Idaho National Engineering Laboratory, shall be available for the Boron Neutron Capture Therapy Research Program, of which \$84,800,000 shall be available only for the Institute for Micromanufacturing, Louisiana Tech University; the Ambulatory Research and Education Building, Oregon Health Sciences University; Cancer/Oncology Center, Medical University of South Carolina; Biomedical Research Institute, LSU Medical Center, Shreveport, Louisiana; Technology Complex at Pittsburg State University, Pittsburg, Kansas; Energy, Mineral and Materials Science Research Building Expansion at the University of Alabama; Research Institute at Loma Linda University Medical Center; Cancer Research Center at Indiana University School of Medicine at Indianapolis; Old Colony Center for Technological Applications at Bridgewater State College in Bridgewater, Massachusetts; and the Center for Molecular Electronics at the University of Missouri-St. Louis] , of which \$4,000,000 shall be derived by transfer from the Geothermal Resources Development Fund.

EXPLANATION OF CHANGE

Deletes language applicable only to the FY 1992 appropriation. Added language provides for the transfer of unobligated balances from the Geothermal Resources Development Fund to fund activities in the Energy Supply Research and Development account.

DEPARTMENT OF ENERGY

Proposed Appropriation Language

General Science and Research Activities

For expenses of the Department of Energy activities including the purchase, construction and acquisition of plant and capital equipment and other expenses incidental thereto necessary for general science and research activities in carrying out the purposes of the Department of Energy Organization Act [(Public Law 95-91)] (42 U.S.C. 7101, et. seq.), including the acquisitions or condemnation of any real property or facility or for plant or facility acquisition, construction, or expansion; purchase of passenger motor vehicles (not to exceed [7] 10 for replacement only) [\$1,472,489,000] \$1,652,684,000, to remain available until expended. In addition, such sums as are transferred from the Superconducting Super Collider Trust Fund shall be available, until expended, for the specific purpose of offsetting costs incurred by the Department in the design and development of the Superconducting Super Collider.

EXPLANATION OF CHANGE

Proposed appropriation language will allow the Department to utilize funds transferred from the newly created Superconducting Super Collider Trust Fund. Funds deposited into the Trust Fund are cost-sharing contributions from non-Federal sources.

DEPARTMENT OF ENERGY

Proposed Appropriation Language

Superconducting Super Collider Trust Fund

There is established in the Treasury a fund to be known as the Department of Energy Superconducting Super Collider (SSC) Trust Fund, which shall consist of moneys provided by non-Federal participants in Department of Energy SSC activities: Provided, That amounts deposited in the Fund are available, without fiscal year limitation, for transfer by the Secretary of Energy to the "General Science and Research Activities" account, to be used for costs incurred in the design and construction of the SSC: Provided further, That amounts deposited in the fund shall earn interest at a rate and under such terms and conditions as may be prescribed by the Secretary of the Treasury.
