H.R.5373

An Act

Making appropriations for energy and water development for the fiscal year ending September 30, 1993, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for the fiscal year ending September 30, 1993, for energy and water development, and for other purposes, namely:

TITLE I
DEPARTMENT OF DEFENSE--CIVIL
DEPARTMENT OF THE ARMY
Corps of Engineers--Civil

The following appropriations shall be expended under the direction of the Secretary of the Army and the supervision of the Chief of Engineers for authorized civil functions of the Department of the Army pertaining to rivers and harbors, flood control, beach erosion, and related purposes.

General Investigations

For expenses necessary for the collection and study of basic information pertaining to river and harbor, flood control, shore protection, and related projects, restudy of authorized projects, miscellaneous investigations, and when authorized by laws, surveys and detailed studies and plans and specifications of projects prior to construction, $175,780,000, to remain available until expended: Provided, That with funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to undertake the following items under General Investigations in fiscal year 1993 in the amounts specified:

Los Angeles County Drainage Area Water Conservation and Supply, California, $200,000;
Los Angeles River Watercourse Improvement, California, $300,000;
Rancho Palos Verdes, California, $400,000;
Miami River Sediments, Florida, $50,000;
Monroe County (Smathers Beach), Florida, $500,000;
Casino Beach, Illinois, $110,000;
Chicago Shoreline, Illinois, $600,000;
McCoy and Thornton Reservoirs, Illinois, $3,500,000;
Lake George, Hobart, Indiana, $260,000;
Little Calumet River Basin (Cady Marsh Ditch), Indiana, $170,000;
Mississippi River, Vicinity of St. Louis, Missouri, $500,000;
Ste. Genevieve, Missouri, $750,000;
Passaic River Mainstem, New Jersey, $10,000,000; and
Red River Waterway, Shreveport, Louisiana, to Daingerfield, Texas, $2,800,000;

Provided further, That using $320,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to continue the cost-shared feasibility study of the Calleguas Creek, California, project based on the reconnaissance phase analyses of full intensification benefits resulting from a change in cropping patterns to more intensive crops within the floodplain. The feasibility study will consider the agricultural benefits using both traditional and nontraditional methods, and will include an evaluation of the benefits associated with the environmental protection and restoration of Mugu Lagoon: Provided further, That using $200,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to conduct a cost-shared feasibility study for flood control at Norco Bluffs, California, based on flood related flows and channel migration which have caused bank destabilization and damaged private property and public utilities in the area: Provided further, That using $300,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to expand the study of long-term solutions to shoaling problems in Santa Cruz Harbor, California, by incorporating the study of erosion problems between the harbor and the easterly limit of the City of Capitola, particularly beach-fill type solutions which use and imported from within or adjacent to the harbor: Provided further, That and $450,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to include the study of Alafia River as part of the Tampa Harbor, Alafia River and Big Bend, Florida, feasibility study: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed to undertake a study of a greenway corridor along the Ohio River in New Albany, Clarksville, and Jeffersonville, Indiana, using $125,000 of the funds appropriated under this heading in Public Law 101-101 for Jeffersonville, Indiana, $127,000 of the funds appropriated under this heading in Public Law 101-514, and $250,000 of the funds appropriated under this heading in Public Law 102-104: Provided further, That using $450,000 of the funds appropriated
For the prosecution of river and harbor, flood control, shore protection, and related projects authorized by laws; and detailed studies, and plans and specifications (including those for development with participation or under consideration for participation by States, local governments, or private groups) authorized or made eligible for selection by law (but such studies shall not constitute a commitment of the Government to construction), $1,230,503,000, to remain available until expended, of which such sums as are necessary pursuant to Public Law 99-662 shall be

Construction, General

For the prosecution of river and harbor, flood control, shore protection, and related projects authorized by laws; and detailed studies, and plans and specifications (including those for development with participation or under consideration for participation by States, local governments, or private groups) authorized or made eligible for selection by law (but such studies shall not constitute a commitment of the Government to construction), $1,230,503,000, to remain available until expended, of which such sums as are necessary pursuant to Public Law 99-662 shall be
derived from the Inland Waterways Trust Fund, for one-half of the costs of construction and rehabilitation of inland waterways projects, including rehabilitation costs for the following projects: Mississippi River, Lock and Dam 13, Illinois and Iowa; Mississippi River, Lock and Dam 15, Illinois and Iowa; Illinois Waterway, Brandon Road, Dresden Island, Marseilles, and Lockport Locks and Dams, Illinois: Provided, That with funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to undertake the following projects in fiscal year 1993 in the amounts specified:

- Kissimmee River, Florida, $8,000,000
- O'Hare Reservoir, Illinois, $3,000,000
- Des Moines Recreational River and Greenbelt, Iowa, $2,500,000
- Red River Basin Chloride Control, Texas and Oklahoma, $6,000,000
- Wallisville Lake, Texas, $500,000
- LaConner, Washington, $870,000

Provided further, That using $7,653,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to continue the project to correct seepage problems at Beaver Lake, Arkansas, and all costs incurred in carrying out that project shall be recovered in accordance with section 1203 of the Water Resources Development Act of 1986: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed to base all economic analyses of the Sacramento River Flood Control (Deficiency Correction), California, on the benefits of the entire project, rather than the benefits of individual increments of the project: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, shall expend $500,000 of the funds appropriated herein and additional amounts as required from previously appropriated funds to continue plans and specifications, environmental documentation, and the comprehensive hydraulic modeling necessary to achieve the maximum extent practicable in fiscal year 1993 the project to restore the riverbed gradient at Mile 206 of the Sacramento River in California, for purposes of stabilizing the level of the river and establishing the program to facilitate new fish protection facilities, the planning, design and implementation of which are integrally related to the planning, design and implementation of the project to restore the flood-damaged riverbed gradient: Provided further, That using $660,000 in funds previously appropriated in Public Law 102-104, the Secretary of the Army, acting through the Chief of Engineers, is directed to develop a floodplain management planning model for the Yolo Bypass and adjacent areas as deemed appropriate, except, as provided in section 321 of Public Law 101-640, such funds shall not be subject to cost-sharing requirements. The one-time construction of operation and maintenance facilities associated with the Yolo Basin Wetlands, Sacramento River, California, project shall be included as part of project costs for the purposes of cost-sharing authorized by law: Provided further, That using $4,000,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to complete preconstruction engineering and design for the San Timoteo feature of the Santa Ana River Mainstem, California, project: Provided further, That using funds available in this Act or any previous appropriations Act, the Secretary of the Army shall undertake at Federal expense such actions as are necessary to ensure the safety and integrity of the work performed under Section 317 of Public Law 100-680 and as required for the Walnut Creek, California, flood control project: Provided further, That using $700,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to continue work on project modifications for the improvement of the environment, as part of the Anacostia River Flood Control and Navigation Project, District of Columbia and Maryland, under the authority of section 1135 of Public Law 99-662, as amended: Provided further, That using $3,000,000 of the funds appropriated under this heading in Public Law 101-514, the Secretary of the Army, acting through the Chief of Engineers, is directed to complete real estate appraisals and make offers to willing sellers for the purchase of land at Red Rock Lake and Dam, Iowa, no later than October 31, 1993: Provided further, That with $20,565,000 of the funds appropriated herein to remain available until expended, the Secretary of the Army, acting through the Chief of Engineers, is directed to continue to undertake structural and nonstructural work associated with the Barbourville, Kentucky, and the Harlan, Kentucky, elements of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River project authorized by section 202 of Public Law 96-367: Provided further, That with $23,000,000 of prior year appropriations to remain available until expended, the Secretary of the Army, acting through the Chief of Engineers, is directed to continue construction of the Lower Mingo County, West Virginia, Tug Fork Tributaries, West Virginia, Upper Tug Fork, West Virginia, element of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River project authorized by section 202 of Public Law 96-367: Provided further, That
with $1,500,000 of the funds appropriated herein to remain available until expended, the Secretary of the Army, acting through the Chief of Engineers, is directed to initiate and complete construction, using continuing contracts, of the Hatfield Bottom, West Virginia, element of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River project authorized by section 202 of Public Law 96-367: Provided further, That with $1,195,000 of the funds appropriated herein to remain available until expended, the Secretary of the Army, acting through the Chief of Engineers, is directed to expedite completion of specific project reports for McDowell County, West Virginia, Upper Mingo County, West Virginia, Wayne County, West Virginia, Upper Tug Fork Tributaries, West Virginia, Tug Fork, West Virginia, and Pike County, Kentucky: Provided further, That no fully allocated funding policy shall apply to construction of the Matewan, West Virginia, Lower Mingo County, West Virginia, Barbourville, Kentucky, and Harlan, Kentucky, elements of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River project; and specific project reports for McDowell County, West Virginia, Upper Mingo County, West Virginia, Wayne County, West Virginia, Tug Fork Tributaries, West Virginia, Upper Tug Fork, West Virginia, and Pike County, Kentucky: Provided further, That using $400,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to continue construction of the Salyersville cut-through as authorized by Public Law 99-662, section 401(e)(1), in accordance with the Special Project Report for Salyersville, Kentucky, concurred in by the Ohio River Division Engineers on or about July 26, 1989: Provided further, That using $7,700,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to continue design and construction of the Ouachita River levee system, Louisiana, Hurricane Protection project and award continuing contracts for construction of this parallel protection to be cost-shared as part of the overall levee system, respectively, in accordance with the cost-sharing provisions outlined in Public Law 99-298 and Public Law 102-104. Therefore, agreements executed prior to June 1, 1992, between the Federal Government and local sponsors for the authorized project shall suffice for this purpose and will not require any additional local cost-sharing agreements or supplements: Provided further, That using $4,400,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to provide sewage disposal hookup for the Crosswinds Marina at the B. Everett Jordan Dam and Lake, North Carolina, project: Provided further, That using $500,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to continue work on the Forrest Design Memorandum for the Forest Ridge Peninsula Recreation Area at the Falls Lake, North Carolina, project: Provided further, That using $5,000,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to continue work on the New York Harbor Collection and Removal of Drift, New York and New Jersey, project including the continuation of engineering and design of the Brooklyn 2, Kill Van Kull, Shooters Island, Bayonne, and Passaic River Reaches, the completion of the design memoranda for the Arthur Kill, New York, and Arthur Kill, New Jersey, reaches, the continuation of construction on the Weehawken-Edgewater, New Jersey and Brooklyn 2 reaches, and the completion of construction of the Jersey City North 2 reach: Provided further, That using $1,000,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to continue work on the Hatfield Bottom, West Virginia, element of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River project authorized by section 202 of Public Law 96-367: Provided further, That with $1,195,000 of the funds appropriated herein to remain available until expended, the Secretary of the Army, acting through the Chief of Engineers, is authorized and directed to pay such sum or sums as are necessary to compensate for costs of repair, relocation, restoration, or protection of public and private property and facilities in Washington and Idaho damaged by the drawdown undertaken in March 1992 by the United States Army Corps of Engineers at the Little Goose and Lower Granite projects in Washington: Provided further,
That using not to exceed $2,000,000 of the funds appropriated herein for the Columbia River Juvenile Fish Mitigation, Washington, project, the Secretary of the Army, acting through the Chief of Engineers, is authorized to undertake advanced planning and design of modifications to public and private facilities that may be affected by operation of John Day Dam at minimum operating pool (elevation 257 feet): Provided further, That using $2,500,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to undertake further construction aspects of the Bethel, Alaska, Bank Stabilization Project as authorized by Public Law 99-662 including but not limited to the installation of steel whalers and additional rock toe protection to the pipe pile, bulkheads and other areas vulnerable to collapse: Provided further, That no fully allocated funding policy shall apply to construction of the Bethel, Alaska, Bank Stabilization Project and to the greatest extent possible the work described herein should be compatible with the authorized project: Provided further, That using funds made available in this Act or any previous appropriations Act, the Secretary of the Army shall construct a project for streambank protection along 2.2 miles of French Point to Sequoyah Hills Parties of the Tennessee River, Tennessee, at a total cost of $600,000, with an estimated first Federal cost of $450,000 and an estimated first non-Federal cost of $150,000: Provided further, That with $3,000,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is authorized to excavate the St. George Harbor, Alaska, entrance to -20 MLLW in accordance with the plan of Public Law 99-662: Provided further, That using $250,000 of funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to demolish and remove the India Point Railroad Bridge in the Seekonk River, Providence, Rhode Island as authorized by section 1166(c) of Public Law 99-662: Provided further, That with $600,000 of the funds appropriated herein, to remain available until expended, the Secretary of the Army, acting through the Chief of Engineers, to correct a design deficiency at the Falls Lake, North Carolina project, is authorized and directed to implement Plan 5 as described in the Design Memo Supplement dated November 1988, concurred in by the South Atlantic Division Engineer in March 1989, or any modifications to Plan 5 that would require raising the spillway only, or that minimize or eliminate the need for land acquisition by the Corps, provided such modifications are agreeable to the North Carolina Division of Water Resources and do not compromise the projected water supply levels, with cost sharing as prescribed in the referenced report for this design deficiency; and, in addition, $130,000,000, to remain available until expended, is hereby appropriated for construction of the Red River Waterway, Mississippi River to Shreveport, Louisiana, project, and the Secretary of the Army is directed to continue the second phase of construction of Plan 5: to continue construction of the Curtis and Eagle Bend, Phase I, Revetments in Pool 5 which were previously directed to be initiated in fiscal year 1992; to complete construction of the Carroll and Cupples Capouts, McDade, Moss, Sunny Point, and Eagle Bend, Phase II, Revetments in Pools 4 and 5 which were previously directed to be initiated; to award continuing contracts in fiscal year 1993 for construction of the remaining features of the Red River Waterway which are not to be considered fully funded: recreation facilities in Pools 4 and 5, Howard Capout, Westdale Capout, Piermont Capout, Coughatta flood damage repairs, and Twelvemile Bayou Bend Revetment adjacent to Wells Island Road. For expenses necessary for prosecuting work of flood control, and rescue work, repair, restoration, or maintenance of flood control projects threatened or destroyed by flood, as authorized by law (33 U.S.C. 702a, 702g-1), $351,182,000, to remain available until expended: Provided, That not less than $250,000 shall be available for bank stabilization measures as determined by the Chief of Engineers to be advisable for the control of bank erosion of streams in the Yazoo Basin, including the foothill area, and new work shall complement similar work planned and constructed by the Soil Conservation Service and be limited to the areas of responsibility mutually agreeable to the District Engineer and the State Conservationist: Provided further, That the funds provided herein for operation and maintenance of Yazoo Basin Lakes shall be available for the maintenance of road and trail surfaces, alignments, widths, and drainage features: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed to use $1,000,000 of the funds appropriated herein to continue work on the Eastern Arkansas Region, Arkansas, project including the development and implementation of plans for one area to serve as a demonstration project.
Operation and Maintenance, General

For expenses necessary for the preservation, operation, maintenance, and care of existing river and harbor, flood control, and related works, including such sums as may be necessary for the maintenance of harbor channels provided by a State, municipality or other public agency, outside of harbor lines, and serving essential needs of general commerce and navigation; surveys and charting of eastern and northwestern lakes and connecting waters; clearing and straightening channels; and removal of obstructions to navigation, $1,541,668,000, to remain available until expended, of which such sums as become available in the Harbor Maintenance Trust Fund, pursuant to Public Law 99-662, may be derived from that fund, and of which $16,000,000 shall be for construction, operation, and maintenance of outdoor recreation facilities, to be derived from the special account established by the Land and Water Resources Development Act of 1988: Provided further, That none of the funds appropriated herein shall be used to finalize or implement the wetlands delineation manual is adopted.

None of the funds in this Act shall be used to finalize or implement the wetlands delineation manual is adopted, as it has since August 17, 1991, until a final and Delineating Jurisdictional Wetlands that was adopted in January 1989 as a `water of the United States' under the Federal Manual for Identifying and serving essential needs of general commerce and navigation; surveys and charting of eastern and northwestern lakes and connecting waters; clearing and straightening channels; and removal of obstructions to navigation, $1,541,668,000, to remain available until expended, of which such sums as become available in the Harbor Maintenance Trust Fund, pursuant to Public Law 99-662, may be derived from that fund, and of which $16,000,000 shall be for construction, operation, and maintenance of outdoor recreation facilities, to be derived from the special account established by the Land and Water Resources Development Act of 1988: Provided further, That none of the funds appropriated herein shall be used to finalize or implement the wetlands delineation manual is adopted.

None of the funds in this Act shall be used to finalize or implement the wetlands delineation manual is adopted, as it has since August 17, 1991, until a final and Delineating Jurisdictional Wetlands that was adopted in January 1989 as a `water of the United States' under the Federal Manual for Identifying and serving essential needs of general commerce and navigation; surveys and charting of eastern and northwestern lakes and connecting waters; clearing and straightening channels; and removal of obstructions to navigation, $1,541,668,000, to remain available until expended, of which such sums as become available in the Harbor Maintenance Trust Fund, pursuant to Public Law 99-662, may be derived from that fund, and of which $16,000,000 shall be for construction, operation, and maintenance of outdoor recreation facilities, to be derived from the special account established by the Land and Water Resources Development Act of 1988: Provided further, That none of the funds appropriated herein shall be used to finalize or implement the wetlands delineation manual is adopted.

None of the funds in this Act shall be used to finalize or implement the wetlands delineation manual is adopted, as it has since August 17, 1991, until a final and Delineating Jurisdictional Wetlands that was adopted in January 1989 as a `water of the United States' under the Federal Manual for Identifying and serving essential needs of general commerce and navigation; surveys and charting of eastern and northwestern lakes and connecting waters; clearing and straightening channels; and removal of obstructions to navigation, $1,541,668,000, to remain available until expended, of which such sums as become available in the Harbor Maintenance Trust Fund, pursuant to Public Law 99-662, may be derived from that fund, and of which $16,000,000 shall be for construction, operation, and maintenance of outdoor recreation facilities, to be derived from the special account established by the Land and Water Resources Development Act of 1988: Provided further, That none of the funds appropriated herein shall be used to finalize or implement the wetlands delineation manual is adopted.
Flood Control and Coastal Emergencies
For expenses necessary for emergency flood control, hurricane, and shore
protection activities, as authorized by section 5 of the Flood Control
Act approved August 18, 1941, as amended, $10,000,000, to remain available
until expended.

General Expenses
For expenses necessary for general administration and related functions in
the office of the Chief of Engineers and offices of the Division Engineers;
activities of the Board of Engineers for Rivers and Harbors, the Coastal
Engineering Research Board, the Humphreys Engineer Center Support Activity,
and the Water Resources Support Center, $142,000,000, to remain available
until expended.

Funds are provided for the management and direction of the United States
Army Corps of Engineers Civil Works Program, except that such funds shall
not be used to close any district office of the Corps of Engineers. To
further a more efficient headquarters and division office structure, the
Secretary may transfer not to exceed $7,000,000 from other appropriations
under this title to be merged with, and remain available for the same
time period as, this appropriation: Provided, That this appropriation shall not be increased by more than 5 per centum by any such transfers,
and the Committees on Appropriations of the House and Senate shall be
promptly advised of such proposed transfers.

Administrative Provisions
Appropriations in this title or appropriations made in this title in
subsequent Energy and Water Development Appropriations Acts shall hereafter
be available for expenses of attendance by military personnel at meetings
in the manner authorized by section 4110 of title 5, United States Code,
uniforms, and allowances therefor, as authorized by law (5 U.S.C. 5901-5902),
and for printing, either during a recess or session of Congress, of survey
reports authorized by law, and such survey reports as may be printed during
a recess of Congress shall be printed, with illustrations, as documents
of the next succeeding session of Congress. Appropriations in this title shall
be available for advertisement and representation expenses (not to exceed
$5,000); and during the current fiscal year the revolving
fund, Corps of Engineers, shall be available for purchase (not to exceed
100 for replacement only) and hire of passenger motor vehicles.

GENERAL PROVISIONS
Corps of Engineers--Civil
SEC. 101. Public Law 101-302 (104 Stat. 213) is amended by striking the
words "to meet the present emergency needs" under the General Expenses
appropriation title of Corps of Engineers--Civil.
SEC. 102. Any funds heretofore appropriated and made available in Public
Law 99-88 for construction of facilities at the Mill Creek recreation area
of the Tioga-Hammond Lakes, Pennsylvania, project; in Public Law 100-71
for initiation of land acquisition activities as described in section
1114 of Public Law 99-662; and in Public Law 101-101 for construction
of the Satilla River Basin, Georgia, project, and for acquisition of an
icebreaking boat and equipment for the Kankakee River, Illinois, project,
may be utilized by the Secretary of the Army in carrying out projects and
activities funded by this Act.
SEC. 103. The Secretary of the Army, acting through the Chief of Engineers,
is directed to maintain in caretaker status the navigation portion of the
Fox River System in Wisconsin. The Assistant Secretary of the Army for
Civil Works shall take over negotiations with the State of Wisconsin for
the orderly transfer of ownership and operation of the Fox River Lock System
to a non-Federal entity. These negotiations shall commence immediately, be
conducted in good faith, and be completed as soon as possible. The terms
of a negotiated settlement shall be presented to Congress immediately
upon the completion of these negotiations. The settlement shall include
provisions for both the logistics and timing of the transfer of the Lock
System, as well as a negotiated recommendation for monetary compensation
to the non-Federal entity for the repair and rehabilitation of damage and
deterioration associated with all appropriate portions of the Fox River
System which are being transferred.
SEC. 104. The requirements of section 103(a)(1)(A) of the Water Resources
Development Act of 1986 (33 U.S.C. 2213), as pertains to the Moorefield and
Petersburg, West Virginia, flood protection projects, are deemed satisfied,
in consideration of the transfer of Grandview State Park by the State of
West Virginia to the National Park Service for inclusion in the New River
Gorge National River.
SEC. 105. None of the funds appropriated in this Act shall be used to
implement the proposed rule for the Army Corps of Engineers amending
regulations on 'ability to pay' (33 CFR part 241), published in the Federal
SEC. 106. In fiscal year 1993, the Secretary shall advertise for competitive
bid at least 7,500,000 cubic yards of the hopper dredge volume accomplished
Notwithstanding the provisions of this section, the Secretary is authorized
to use the dredge fleet of the Corps of Engineers to undertake projects
when industry does not perform as required by the contract specifications
or when the bids are more than 25 percent in excess of what the Secretary
determines to be a fair and reasonable estimated cost of a well equipped contractor doing the work or to respond to emergency requirements.

TITLE II

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

For carrying out the functions of the Bureau of Reclamation as provided in the Federal reclamation laws (Act of June 17, 1902, 32 Stat. 388, and Acts amendatory thereof or supplementary thereto) and other Acts applicable to said Bureau as follows:

GENERAL INVESTIGATIONS

For engineering and economic investigations of proposed Federal reclamation projects and studies of water conservation and development plans and activities preliminary to the reconstruction, rehabilitation and retirement of existing projects, or extension of existing projects, to remain available until expended, $12,540,000: Provided, That, of the total appropriated, the amount for program activities which can be financed by the reclamation fund shall be derived from that fund: Provided further, That funds contributed by non-Federal entities for purposes similar to this appropriation shall be available for expenditure for the purposes for which contributed as though specifically appropriated for said purposes, and such amounts shall remain available until expended.

CONSTRUCTION PROGRAM

(INCLUDING TRANSFER OF FUNDS)

For construction and rehabilitation of projects and parts thereof (including power transmission facilities for Bureau of Reclamation use) and for other related activities authorized by law, to remain available until expended, $470,568,000 of which $69,333,000 shall be available for transfer to the Upper Colorado River Basin Fund authorized by section 5 of the Act of April 11, 1956 (43 U.S.C. 620d), and $154,868,000 shall be available for transfer to the Lower Colorado River Basin Development Fund authorized by section 403 of the Act of September 30, 1968 (43 U.S.C. 1543), and such amounts as may be necessary shall be considered as though advanced to the Colorado River Dam Fund for the Boulder Canyon Project as authorized by the Act of December 21, 1928, as amended: Provided, That of the total appropriated, the amount for program activities which can be financed by the reclamation fund shall be derived from that fund: Provided further, That transfers to the Upper Colorado River Basin Fund and Lower Colorado River Basin Development Fund may be increased or decreased by transfers within the overall appropriation in kind: Provided further, That funds contributed by non-Federal entities for purposes similar to this appropriation shall be available for expenditure for the purposes for which contributed as though specifically appropriated for said purposes, and such funds shall remain available until expended: Provided further, That the final point of discharge for the interceptor drain for the San Luis Unit shall not be determined until development by the Secretary of the Interior and the State of California of a plan, which shall conform with the water quality standards of the State of California as approved by the Administrator of the Environmental Protection Agency, to minimize any detrimental effect of the San Luis drainage waters: Provided further, That no part of the funds herein approved shall be available for construction or operation within the limits of any national monument: Provided further, That the funds contained in this Act for the Garrison Diversion Unit, North Dakota, shall be expended only in accordance with the provisions of the Garrison Diversion Unit Reformation Act of 1986 (Public Law 99-294): Provided further, That all costs of the safety of dams modification work at Coolidge Dam, San Carlos Irrigation Project, Arizona, performed under the authority of the Reclamation Safety of Dams Act of 1979 (43 U.S.C. 506), as amended, are in addition to the amount authorized in section 5 of said Act: Provided further, That none of the funds appropriated in this Act shall be used to study or construct the Cliff Dam feature of the Central Arizona Project: Provided further, That Plan 6 features of the Central Arizona Project other than Cliff Dam, including (1) water rights and associated lands within the State of Arizona acquired by the Secretary of purchase, lease, or exchange by any methods of conserving, developing, and utilizing the water resources of the State of Arizona for municipal and industrial purposes, not to exceed 30,000 acre feet; and, (2) such increments of flood control that may be found to be feasible by the Secretary of the Interior at Horseshoe and Bartlett Dams, in consultation and cooperation with the Secretary of the Army and using Corps of Engineers evaluation criteria, developed in conjunction with dam safety modifications and consistent with applicable environmental law, are hereby deemed to constitute a suitable alternative to Orme Dam within the meaning of the Colorado River Basin Project Act (82 Stat. 885; 43 U.S.C. 1501 et seq.): Provided further, That the amount authorized by section 4(a)(1) of Public Law 98-541 for the Trinity River Basin, California, Fish and Wildlife Management Program, is hereby increased by $15,000,000 to $48,000,000: Provided further, That pursuant to section 406(c)(2) of Public Law 101-628, the Secretary of the Interior is directed to reimburse, in an amount not to exceed $800,000, the City of Prescott, Arizona, for funding advanced by Prescott, Arizona, to the Bureau of Reclamation for hydrological studies required by section 406(c)(1) of Public Law 101-628: Provided further, That the prohibition against obligating funds for construction until after
sixty days from the date the Secretary transmits a report to the Congress in accordance with section 5 of the Reclamation Safety of Dams Act of 1978 (43 U.S.C. 509) is waived for the Bitter Root Project, Como Dam, Montana, to allow for an earlier start of emergency repair work.

OPERATION AND MAINTENANCE
For operation and maintenance of reclamation projects or parts thereof and other facilities, as authorized by law; and for a soil and moisture conservation program under the jurisdiction of the Bureau of Reclamation, pursuant to law, to remain available until expended, $274,760,000: Provided, That of the total appropriated, the amount for program activities which can be financed by the reclamation fund shall be derived from that fund, and the amount for program activities which can be derived from the special fee account established pursuant to the Act of December 22, 1987 (43 U.S.C. 460l-6a, as amended), may be derived from that fund: Provided further, That of the total appropriated, such amounts as may be required for replacement work on the Boulder Canyon Project shall be available for payment of claims for damages to or loss of property, personal injury, or death arising out of activities of the Bureau of Reclamation; payment, except as otherwise provided for, of compensation and expenses of persons on the rolls of the Bureau of Reclamation appointed as authorized by law to represent the United States in the negotiations and administration of interstate compacts without reimbursement or return.

BUROUH OF RECLAMATION LOANS PROGRAM ACCOUNT
For the cost, as defined in section 13201 of the Budget Enforcement Act of 1990, of direct loans and/or grants, $3,502,000, to remain available until expended, as authorized by the Small Reclamation Projects Act of August 6, 1956, as amended (43 U.S.C. 422a-422l): Provided, That such costs, including the cost of modifying fund loans to be nonreimbursable pursuant to the Act of April 19, 1945 (43 U.S.C. 377): Provided further, That these funds are available to subsidize gross obligations for the principal amount of direct loans not to exceed $8,000,000.
In addition, for administrative expenses necessary to carry out the program for direct loans and/or grants, $600,000: Provided, That of the total sums appropriated herein, the amount of program activities which can be financed by the reclamation fund shall be derived from the fund.

GENERAL ADMINISTRATIVE EXPENSES
For necessary expenses of general administration and related functions in the office of the Commissioner, the Denver office, and offices in the five regions of the Bureau of Reclamation, $53,745,000, of which $1,177,000 shall remain available until expended, the total amount to be derived from the reclamation fund and to be nonreimbursable pursuant to the Act of April 19, 1945 (43 U.S.C. 377): Provided, That no part of any other appropriation in this Act shall be available for activities or functions budgeted for the current fiscal year as general administrative expenses.

EMERGENCY FUND
For an additional amount for the 'Emergency fund', as authorized by the Act of December 22, 1987 (16 U.S.C. 4601-6a, as amended), respectively. Such sums shall be transferred, upon request of the Secretary, to be merged with and expended under the heads herein specified; and the unexpended balances of sums transferred for expenditure under the 'Emergency Fund' shall revert and be credited to the reclamation fund.

SPECIAL FUNDS
(TRANSFER OF FUNDS)
Sums herein referred to as being derived from the reclamation fund or special fee account transferred from the special funds in the Treasury created by the Act of June 17, 1902 (43 U.S.C. 391) or the Act of December 22, 1987 (16 U.S.C. 4601-6a, as amended), respectively. Such sums shall be transferred, upon request of the Secretary, to be merged with and expended under the heads herein specified; and the unexpended balances of sums transferred for expenditure under the 'General Administrative Expenses' shall revert and be credited to the reclamation fund.

ADMINISTRATIVE PROVISIONS
Appropriations for the Bureau of Reclamation shall be available for purchase of not to exceed 17 passenger motor vehicles for replacement only.
Appropriations for the Bureau of Reclamation in this Act or in subsequent Energy and Water Development Appropriations Acts shall hereafter be available for payment of claims for damages to or loss of property, personal injury, or death arising out of activities of the Bureau of Reclamation; payment, except as otherwise provided for, of compensation and expenses of persons on the rolls of the Bureau of Reclamation appointed as authorized by law to represent the United States in the negotiations and administration of interstate compacts without reimbursement or return.
under the reclamation laws; services as authorized by 5 U.S.C. 3109, in
total not to exceed $500,000 per year; rewards for information or evidence
concerning violations of law involving property under the jurisdiction of
the Bureau of Reclamation; performance of the functions specified under the
head 'Operation and Maintenance Administration', Bureau of Reclamation,
in the Interior Department Appropriations Act 1945; preparation and
dissemination of maps or other printed materials; expenditures for
photographic prints; and studies of recreational uses of reservoir
areas, and investigation and recovery of archeological and paleontological
remains in such areas in the same manner as provided for in the Acts of
Provided, That hereafter no part of any appropriation made in this Act
or in subsequent Energy and Water Development Appropriations Acts shall be
available for transfers (within each bureau or office) for expenditure or transfer
other than those incurred on behalf of specific reclamation projects except
'General Administrative Expenses', amounts provided for plan formulation
investigations under the head 'General Investigations', and amounts provided
for science and technology under the head 'Construction Program'.
Sums appropriated in this Act or in subsequent Energy and Water Development
Appropriations Acts which are expended in the performance of reimbursable
functions of the Bureau of Reclamation shall be returnable to the extent
and in the manner provided by law.
No part of any appropriation for the Bureau of Reclamation, contained in
this Act, in any prior Act, or in subsequent Energy and Water Development
Appropriations Acts which represents amounts earned under the terms of a
contract or purchase order may be obligated for any other purpose, regardless of
when such amounts are to be paid: Provided, That the incurring
of any obligation prohibited by this paragraph shall be deemed a violation
No funds appropriated to the Bureau of Reclamation for operation and
maintenance in this Act or in subsequent Energy and Water Development
Appropriations Acts, except those derived from advances by water users,
shall be reimbursed for services rendered to any other activity in the same
manner as provided for in the Acts of
Provided, That hereafter no part of any appropriation made in this Act
or in subsequent Energy and Water Development Appropriations Acts shall be
available for hire, maintenance, and operation of aircraft;
hire of passenger motor vehicles; purchases of reprints; payment for
telephone services in private residences in the field, when authorized
under regulations approved by the Secretary; and the payment of dues, 
when authorized by the Secretary, for library memberships in societies or
associations which issue publications to members only or at a price to
members lower than to subscribers who are not members.
SEC. 205. Hereafter, the Bureau of Reclamation may invite non-Federal
entities involved in cost sharing arrangements for the development of
water projects to participate in contract negotiation and source selection
proceedings without violations of the Federal Advisory Committee
Act (5 U.S.C. Appendix (1988)): Provided, That such non-Federal participants
shall be subject to the provisions of the Federal Procurement Integrity Act
(41 U.S.C. 423 (1988)) and to the conflict of interest provisions appearing
SEC. 206. Subsection (a) of section 7 of the Federal Water Project Recreation
Act (79 Stat. 216 16 U.S.C. 460l-18) is amended by deleting the proviso
from the first sentence and by changing the colon after the word 'purposes'
to a period.
SEC. 207. Utilizing processes required under the National Environmental
Policy Act, the Secretary of the Interior is directed to conduct a formal
analysis, by no later than March 31, 1994, of alternatives for the design,
construction, and operation of the Sykston Canal as a functional replacement
for Lonetree Reservoir, pursuant to section 8(a)(1) of Public Law 89-108,
as amended by the Garrison Diversion Reformation Act of 1986, Public
Statement shall be utilized by the Secretary for the development of a
Record of Decision which is to contain the Secretary's recommendation for
proceeding with the final design and construction of the Sykston Canal,
consistent with the Garrison Diversion Reformation Act, the National
Environmental Policy Act, the Endangered Species Act, the Fish and
Wildlife Coordination Act, and the Boundary Waters Treaty of
1909. For purposes of this section, the Secretary shall take into account
the results of studies conducted by the Secretary of the Army with respect
to the stabilization of Devils Lake, North Dakota.
TITLE III
DEPARTMENT OF ENERGY
Energy Supply, Research and Development Activities
(INCLUDING TRANSFER OF FUNDS)
For expenses of the Department of Energy activities including the purchase,
construction and acquisition of plant and capital equipment and other
expenses incidental thereto necessary for energy supply, research and
development activities, and other activities in carrying out the purposes
of the Department of Energy Organization Act (42 U.S.C. 7101, et seq.),
including the acquisition or condemnation of any real property or any
facility for or plant or facility acquisition, construction, or expansion;
purchase of passenger motor vehicles (not to exceed 15, of which 14 are
for replacement only), $3,015,793,000 to remain available until expended,
of which $94,800,000 shall be available only for making competitive,
merit-review awards to academic research facilities, to the extent otherwise
authorized by law.
Uranium Supply and Enrichment Activities
For expenses of the Department of Energy in connection with operating
expenses; the purchase, construction, and acquisition of plant and capital
equipment and other expenses incidental thereto necessary for uranium supply
and enrichment activities in carrying out the purposes of the Department of
Energy Organization Act (42 U.S.C. 7101, et seq.), including the acquisition
or condemnation of any real property or any facility for plant or facility
acquisition, construction, or expansion; purchase of electricity to provide
enrichment services; purchase of passenger motor vehicles (not to exceed 57,
of which 54 are for replacement only), $1,286,320,000, to remain available
until expended: Provided, That revenues received by the Department for
the enrichment of uranium and estimated to total $1,462,000,000 in fiscal year
1993 shall be retained and used for the specific purpose of offsetting
costs incurred by the Department in providing uranium enrichment service
activities as authorized by section 201 of Public Law 95-238, notwithstanding
the provisions of section 302(b) of title 31, United States Code: Provided
further, That the sum herein appropriated shall be reduced as uranium
enrichment revenues are received during fiscal year 1993 so as to result
in a final fiscal year 1993 appropriation estimated at not more than $0.
General Science and Research Activities
(INCLUDING TRANSFER OF FUNDS)
For expenses of the Department of Energy activities including the purchase,
construction and acquisition of plant and capital equipment and other
expenses incidental thereto necessary for general science and research
activities in carrying out the purposes of the Department of Energy
Organization Act (42 U.S.C. 7101, et seq.), including the acquisition
or condemnation of any real property or facility for or plant or facility
acquisition, construction, or expansion; purchase of passenger motor vehicles
(not to exceed 10 for replacement only), $1,417,784,000, to remain available
until expended.
Nuclear Waste Disposal Fund
For nuclear waste disposal activities to carry out the purposes of Public Law
97-425, as amended, including the acquisition of real property or facility
construction or expansion, $275,071,000, to remain available until expended, to be derived from the Nuclear Waste Fund. To the extent that balances in the fund are not sufficient to cover amounts available for obligation in the account, the Secretary shall exercise his authority pursuant to section 302(e)(5) of said Act to issue obligations to the Secretary of the Treasury: Provided, That of the amount herein appropriated, within available funds, $4,568,749,000, to remain available until expended: Provided, That none of the funds appropriated or otherwise made available for the Department of Energy for fiscal year 1993 may be obligated to implement the reconfiguration of nonnuclear activities of the Department of Energy until the occurrence of the following:

(1) The Secretary of Energy submits a report to the Committees on Appropriations that contains an analysis of the projected costs and benefits of the proposed nonnuclear reconfiguration and an analysis of the alternatives considered. The analyses shall take into account all relevant costs and benefits and shall include a discounted cash flow analysis of each alternative.

(2) The Secretary of Energy certifies to the Committees on Appropriations that the discounted cash flow analysis demonstrates that the proposed nonnuclear reconfiguration is cost-effective on a plant by plant basis.

(3) A period of 90 days has elapsed after the later of the submission of the report and the certification by the Secretary of Energy.

Nothing in this provision prohibits the obligation of funds for studies, analysis, or preparation of conceptual designs that are necessary to assess
new production reactor
For Department of Energy expenses, including the purchase, construction and acquisition of plant and capital equipment and other incidental expenses necessary for atomic energy defense new production reactor activities in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101, et seq.), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or expansion, $34,028,000, to remain available until expended: Provided, That $100,000,000 for design of new production reactor capacity made available under the Energy and Water Development Appropriations Act, 1992, shall be available without regard to the issuance of the Record of Decision on the Environmental Impact Statement on New Production Reactor Capacity.

DEFENSE ENVIRONMENTAL RESTORATION AND WASTE MANAGEMENT
For Department of Energy expenses, including the purchase, construction and acquisition of plant and capital equipment and other incidental expenses necessary for atomic energy defense environmental restoration and waste management activities in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101, et seq.), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or expansion; and the purchase of passenger motor vehicles (not to exceed 148 for replacement only), $4,831,547,000, to remain available until expended: Provided, That notwithstanding any other law, funds appropriated under this heading may be made available to pay $100,000 to the United States Environmental Protection Agency for a stipulated penalty assessed under the Environmental Response, Compensation and Liability Act against the Fernald Environmental Management Project.

MATERIALS PRODUCTION AND OTHER DEFENSE PROGRAMS
For Department of Energy expenses, including the purchase, construction and acquisition of plant and capital equipment and other incidental expenses necessary for atomic energy defense materials production, and other defense programs activities in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101, et seq.), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or expansion; and the purchase of passenger motor vehicles (not to exceed 45 for replacement only), $2,584,301,000, to remain available until expended.

DEFENSE NUCLEAR WASTE DISPOSAL
For nuclear waste disposal activities to carry out the purposes of Public Law 97-425, as amended, including the acquisition of real property or facility construction or expansion, $100,000,000, to remain available until expended, all of which shall be used in accordance with the terms and conditions of the Nuclear Waste Fund appropriation of the Department of Energy contained in this title.

Departmental Administration
For salaries and expenses of the Department of Energy necessary for Departmental Administration and other activities in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101, et seq.), including the hire of passenger motor vehicles and official reception and representation expenses (not to exceed $35,000), $405,656,000, to remain available until expended. Provided, That such increases in cost of work are offset by revenue increases of the same or greater amount, to remain available until expended: Provided further, That moneys received by the Department for miscellaneous revenues estimated to total $318,381,000 in fiscal year 1993 may be retained and used for operating expenses within this account, and may remain available until expended, as authorized by section 201 of Public Law 95-238, notwithstanding the provisions of section 3302 of title 31, United States Code: Provided further, That the sum herein appropriated shall be reduced by the amount of miscellaneous revenues received during fiscal year 1993 so as to result in a final fiscal year 1993 appropriation estimated at not more than $87,275,000.

Office of the Inspector General

POWER MARKETING ADMINISTRATIONS
Operations and Maintenance, Alaska Power Administration
For necessary expenses of operation and maintenance of projects in Alaska and of marketing electric power and energy, $3,577,000, to remain available until expended.

Bonneville Power Administration Fund
Expenditures from the Bonneville Power Administration Fund, established pursuant to Public Law, are approved for the Springfield Hatchery Production Facility, Dryden Dam Fish Screens, Bonneville Fish Sampling Facility, and Hungry Horse Resident Fish Hatchery, and, the purchase, maintenance and operation of two rotary-wing aircraft for replacement only; and for official reception and representation expenses in an amount not
to exceed $3,000.
During fiscal year 1993, no new direct loan obligations may be made.

Operation and Maintenance, Southeastern Power Administration
For necessary expenses of operation and maintenance of power transmission facilities and of marketing electric power and energy pursuant to the provisions of section 5 of the Flood Control Act of 1944 (16 U.S.C. 825s), as applied to the southeastern power area, $32,411,000, to remain available until expended.

Operation and Maintenance, Southwestern Power Administration
For necessary expenses of operation and maintenance of power transmission facilities and of marketing electric power and energy, and for construction and acquisition of transmission lines, substations and appurtenant facilities, and for administrative expenses, including official reception and representation in an amount not to exceed $1,500 connected therewith, in carrying out the provisions of section 5 of the Flood Control Act of 1944 (16 U.S.C. 825s), as applied to the southwestern power area, $21,907,000, to remain available until expended; in addition, notwithstanding the provisions of 31 U.S.C. 3302, not to exceed $11,412,000 in reimbursements, to remain available until expended.

Construction, Rehabilitation, Operation and Maintenance, Western Area Power Administration
(INCLUDING TRANSFER OF FUNDS)
For carrying out the functions authorized by title III, section 302(a)(1)(E) of the Act of August 4, 1977 (42 U.S.C. 7101, et seq.), and other related activities including conservation and renewable resources programs as authorized, including reception and representation expenses in an amount not to exceed $1,500, $326,634,000, to remain available until expended, of which $305,390,000 shall be derived from the Department of the Interior Reclamation fund; in addition, the Secretary of the Treasury is authorized to transfer from the Colorado River Dam Fund to the Western Area Power Administration $6,563,000, to carry out the power marketing and transmission activities of the Boulder Canyon project as provided in section 104(a)(4) of the Hoover Power Plant Act of 1984, to remain available until expended.

Federal Energy Regulatory Commission
SALARIES AND EXPENSES
For necessary expenses of the Federal Energy Regulatory Commission to carry out the provisions of the Department of Energy Organization Act (42 U.S.C. 7101, et seq.), including services as authorized by 5 U.S.C. 3109, including the hire of passenger motor vehicles; official reception and representation expenses (not to exceed $3,000); $158,639,000 to remain available until expended: Provided, That hereafter and notwithstanding any other provision of law, not to exceed $158,639,000 of revenues from fees and annual charges, and other services and collections in fiscal year 1993, shall be retained and used for necessary expenses in this account, and shall remain available until expended: Provided further, That the sum herein appropriated shall be reduced as revenues are received during fiscal year 1993, so as to result in a final fiscal year 1993 appropriation estimated at not more than $0.

GENERAL PROVISIONS--DEPARTMENT OF ENERGY
(TRANSFER OF FUNDS)
SEC. 301. Appropriations for the Department of Energy under this title in this and subsequent Energy and Water Development Appropriations Acts, hereafter shall be available for hire of passenger motor vehicles; hire, maintenance and operation of aircraft; purchase, repair and cleaning of uniforms; and reimbursement to the General Services Administration for security guard services. From these appropriations, transfers of sums may hereafter be made to other agencies of the United States Government for the performance of work for which this appropriation is made. None of the funds made available to the Department of Energy under this Act or subsequent Energy and Water Development Appropriations Acts shall be used to implement or finance authorized price support or loan guarantee programs unless specific provision is made for such programs in an appropriation Act. The Secretary is authorized hereafter to accept lands, buildings, equipment, and other contributions from public and private sources and to prosecute projects in cooperation with other agencies, Federal, State, private, or foreign.

(transfer of funds)
SEC. 302. Not to exceed 5 per centum of any appropriation made available for Department of Energy activities funded in this Act or subsequent Energy and Water Development Appropriations Acts may hereafter be transferred between such appropriations, but no such appropriation, except as otherwise provided, shall be increased or decreased by more than 5 per centum by any such transfers, and any such proposed transfers shall be submitted promptly to the Committees on Appropriations of the House and Senate.

(transfer of unexpended balances)
SEC. 303. The unexpended balances of prior appropriations provided for activities in this Act or subsequent Energy and Water Development Appropriations Acts may hereafter be transferred to appropriation accounts for such activities established pursuant to this title. Balances so transferred may be merged with funds in the applicable established accounts...
Minority Participation in the Superconducting Super Collider

SEC. 304. (a) FEDERAL FUNDING- The Secretary of Energy hereafter shall, to the fullest extent possible, ensure that at least 10 per centum of Federal funding for the development, construction, and operation of the Superconducting Super Collider be made available to business concerns or other organizations owned or controlled by socially and economically disadvantaged individuals (within the meaning of section 8(a) (5) and (6) of the Small Business Act (15 U.S.C. 637(a) (5) and (6))), including historically black colleges and universities and colleges and universities having a student body in which more than 20 percent of the students are Hispanic Americans or Native Americans. For purposes of this section, economically and socially disadvantaged individuals shall be deemed to include women.

(b) OTHER PARTICIPATION- The Secretary of Energy hereafter shall, to the fullest extent possible, ensure significant participation, in addition to that described in subsection (a), in the development, construction, and operation of the Superconducting Super Collider by socially and economically disadvantaged individuals (within the meaning of section 8(a) (5) and (6) of the Small Business Act (15 U.S.C. 637(a) (5) and (6))) and economically disadvantaged women.

TITLE IV
INDEPENDENT AGENCIES
APPALACHIAN REGIONAL COMMISSION

For expenses necessary to carry out the programs authorized by the Appalachian Regional Development Act of 1965, as amended, notwithstanding section 405 of said Act, and for necessary expenses for the Federal Cochairman and the alternate on the Appalachian Regional Commission and for payment of the Federal share of the administrative expenses of the Commission, including services as authorized by section 3109 of title 5, United States Code, and hire of passenger motor vehicles, to remain available until expended, $190,000,000.

DEFENSE NUCLEAR FACILITIES SAFETY BOARD
Salaries and Expenses
For necessary expenses of the Defense Nuclear Facilities Safety Board in carrying out activities authorized by the Atomic Energy Act of 1954, as amended by Public Law 100-456, section 1441, $13,000,000, to remain available until expended.

DELAWARE RIVER BASIN COMMISSION

SALARIES AND EXPENSES
For expenses necessary to carry out the functions of the United States member of the Delaware River Basin Commission, as authorized by law (75 Stat. 716), $325,000.

Contribution to Delaware River Basin Commission
For payment of the United States share of the current expenses of the Delaware River Basin Commission, as authorized by law (75 Stat. 706, 707), $475,000.

INTERSTATE COMMISSION ON THE POTOMAC RIVER BASIN

Contribution to Interstate Commission on the Potomac River Basin
To enable the Secretary of the Treasury to pay in advance to the Interstate Commission on the Potomac River Basin the Federal contribution toward the expenses of the Commission during the current fiscal year in the administration of its business in the conservancy district established pursuant to the Act of July 11, 1940 (54 Stat. 748), as amended by the Act of September 25, 1970 (Public Law 91-407), $485,000.

NUCLEAR REGULATORY COMMISSION

Salaries and Expenses
(INCLUDING TRANSFER OF FUNDS)

For necessary expenses of the Commission in carrying out the purposes of the Energy Reorganization Act of 1974, as amended, and the Atomic Energy Act of 1954, as amended, including the employment of aliens; services authorized by section 3109 of title 5, United States Code; publication and dissemination of information; purchase, repair, and cleaning of uniforms, official representation expenses (not to exceed $20,000); reimbursements to the General Services Administration for security guard services; hire of passenger motor vehicles and aircraft, $535,415,000, to remain available until expended, of which $21,100,000 shall be derived from the Nuclear Waste Fund: Provided, That from this appropriation, transfer of sums may be made to other agencies of the Government for the performance of work for which this appropriation is made, and in such cases the sums so transferred may be merged with the appropriation to which transferred: Provided further, That moneys received by the Commission for the cooperative nuclear safety research program, services rendered to foreign governments and international organizations, and the material and information access authorization programs, including criminal history checks under the Atomic Energy Act of 1954, as amended, may be retained and used for salaries and expenses associated with those activities, notwithstanding the provisions of section 3302 of title 31, United States Code, and shall remain available until expended: Provided further, That revenues from licensing fees, inspection services, and other
services and collections estimated at $514,315,000 in fiscal year 1993 shall be retained and used for necessary salaries and expenses in this account, notwithstanding the provisions of section 3302 of title 31, United States Code, and shall remain available until expended: Provided further, That the sum herein appropriated shall be reduced by the amount of revenues received during fiscal year 1993 from licensing fees, inspection services and other services and collections, excluding those moneys received for the cooperative nuclear safety research program, services rendered to foreign governments and international organizations, and the material and information access authorization programs, so as to result in a final fiscal year 1993 appropriation estimated at not more than $21,100,000.

Office of Inspector General
(INCLUDING TRANSFER OF FUNDS)

For necessary expenses of the Office of Inspector General in carrying out the provisions of the Inspector General Act of 1978, as amended, including services authorized by section 3109 of title 5, United States Code, $4,585,000 to remain available until expended; and in addition, an amount not to exceed 5 percent of this sum may be transferred from Salaries and Expenses, Nuclear Regulatory Commission: Provided, That notice of such transfers shall be given to the Committees on Appropriations of the House and Senate: Provided further, That from this appropriation, transfers of sums may be made to other agencies of the Government for the performance of the work for which this appropriation is made, and in such cases the sums so transferred may be merged with the appropriation to which transferred: Provided further, That revenues from licensing fees, inspection services, and other services and collections shall be retained and used for necessary salaries and expenses in this account, notwithstanding the provisions of section 3302 of title 31, United States Code, and shall remain available until expended: Provided further, That the sum herein appropriated shall be reduced by the amount of revenues received during fiscal year 1993 from licensing fees, inspection services, and other services and collections, so as to result in a final fiscal year 1993 appropriation estimated at not more than 0.

NUCLEAR WASTE TECHNICAL REVIEW BOARD

Salaries and Expenses
(INCLUDING TRANSFER OF FUNDS)

For necessary expenses of the Nuclear Waste Technical Review Board, as authorized by Public Law 100-203, section 5051, $2,060,000, to be transferred from the Nuclear Waste Fund and to remain available until expended.

SUSQUEHANNA RIVER BASIN COMMISSION

Salaries and Expenses

For expenses necessary to carry out the functions of the United States member of the Susquehanna River Basin Commission as authorized by law (84 Stat. 1541), $301,000.

Contribution to Susquehanna River Basin Commission

For payment of the United States share of the current expenses of the Susquehanna River Basin Commission, as authorized by law (84 Stat. 1530, 1531), $290,000.

TENNESSEE VALLEY AUTHORITY

Tennessee Valley Authority Fund

For the purpose of carrying out the provisions of the Tennessee Valley Authority Act of 1933, as amended (16 U.S.C. ch. 12A), including purchase, hire, maintenance, and operation of aircraft, and purchase and hire of passenger motor vehicles, and for entering into contracts and making payments under section 11 of the National Trails System Act, as amended, $135,000,000, to remain available until expended: Provided, That this appropriation and other moneys available to the Tennessee Valley Authority may be used hereafter for payment of the allowances authorized by section 5948 of title 5, United States Code.

TITLE V--GENERAL PROVISIONS

SEC. 501. No part of any appropriation contained in this Act or subsequent Energy and Water Development Appropriations Acts shall remain available for obligation beyond the fiscal year specified in such Acts therein unless expressly so provided therein.

SEC. 502. None of the funds in this Act or subsequent Energy and Water Development Appropriations Acts shall be used to pay the expenses of, or otherwise compensate, parties intervening in regulatory or adjudicatory proceedings funded in such Acts.

SEC. 503. None of the programs, projects or activities as defined in the reports accompanying this Act or subsequent Energy and Water Development Appropriations Acts, may be eliminated or disproportionately reduced due to the application of `Savings and Slippage', `general reduction', or the provision of Public Law 99-177 or Public Law 100-119 unless such reports expressly provide otherwise.

SEC. 504. The expenditure of any appropriation under this Act or subsequent Energy and Water Development Appropriations Acts for any consulting service through procurement contract, pursuant to section 3109 of title 5, United States Code, hereafter shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive Order issued pursuant to existing law.
SEC. 505. Notwithstanding any other provision of this Act, subsequent Energy and Water Development Appropriations Acts or any other provision of law hereafter, none of the funds made available under this Act, subsequent Energy and Water Development Appropriations Acts or any other law hereafter shall be used for the purposes of conducting any studies relating or leading to the possibility of changing from the currently required 'at cost' to a 'market rate' or any other noncost-based method for the pricing of hydropower by the six Federal public power authorities, or other agencies or authorities of the Federal Government, except as may be specifically authorized by Act of Congress hereafter enacted.

SEC. 506. Such sums as may be necessary for Federal employee pay raises for programs funded by this Act or subsequent Energy and Water Development Appropriations Acts hereafter shall be absorbed within the levels appropriated in such Acts.

SEC. 507. (a) Hereafter, funds made available by this Act or any other Act for fiscal year 1993 or for any other fiscal year may be available for conducting a test of a nuclear explosive device only if the conduct of that test is permitted in accordance with this section.

(b) No underground test of a nuclear weapon may be conducted by the United States after September 30, 1992, and before July 1, 1993.

(c) On and after July 1, 1993, and before January 1, 1997, an underground test of a nuclear weapon may be conducted by the United States—

(1) only if—

(A) the President has submitted the annual report required under subsection (d);

(B) 90 days have elapsed after the submittal of that report in accordance with that subsection; and

(C) Congress has not agreed to a joint resolution described in subsection (d)(3) within that 90-day period; and

(2) only if the test is conducted during the period covered by the report.

(d)(1) Not later than March 1, of each year beginning after 1992, the President shall submit to the Committees on Armed Services and Appropriations of the House of Representatives, in classified and unclassified forms, a report containing the following matters:

(A) A schedule for resumption of the Nuclear Testing Talks with Russia.

(B) A plan for achieving a multilateral comprehensive ban on the testing of nuclear weapons on or before September 30, 1996.

(C) An assessment of the number and type of nuclear warheads that will remain in the United States stockpile of active nuclear weapons on September 30, 1996.

(D) For each fiscal year after fiscal year 1992, an assessment of the number and type of nuclear warheads that will remain in the United States stockpile of nuclear weapons and that—

(i) will not be in the United States stockpile of active nuclear weapons;

(ii) will remain under the control of the Department of Defense; and

(iii) will not be transferred to the Department of Energy for dismantlement.

(E) A description of the safety features of each warhead that is covered by an assessment referred to in subparagraph (C) or (D).

(F) A plan for installing one or more modern safety features in each warhead identified in the assessment referred to in subparagraph (C), as determined after an analysis of the costs and benefits of installing such features in warheads individually, should have one or more of such features.

(G) An assessment of the number and type of nuclear weapons tests, not to exceed 5 tests in any period covered by an annual report under this paragraph and a total of 15 tests in the 4-fiscal year period beginning with fiscal year 1993, that are necessary in order to ensure the safety of each nuclear warhead in which one or more modern safety features are installed pursuant to the plan referred to in subparagraph (F).

(H) A schedule, in accordance with subparagraph (G), for conducting at the Nevada test site, each of the tests enumerated in the assessment pursuant to subparagraph (G).

(2) The first annual report shall cover the period beginning on the date on which a resumption of testing of nuclear weapons is permitted under subsection (c) and ending on September 30, 1994. Each annual report thereafter shall cover the fiscal year following the fiscal year in which the report is submitted.

(3) For the purposes of paragraph (1), 'joint resolution' means only a joint resolution introduced after the date on which the Committees referred to in that paragraph receive the report required by that paragraph the matter after the resolving clause of which is as follows: 'The Congress disapproves the report of the President on nuclear weapons testing, dated . .' (the blank space being appropriately filled in).

(4) No report is required under this subsection after 1996.

(e)(1) Except as provided in paragraphs (2) and (3), during a period covered by an annual report submitted pursuant to subsection (d), nuclear weapons may be tested only as follows:

(A) Only those nuclear explosive devices in which modern safety features have been installed pursuant to the plan referred to in subsection (d)(1)(F) may be tested.

(B) Only the number and types of tests specified in the report pursuant to subsection (d)(1)(G) may be conducted.
(2) (A) One test of the reliability of a nuclear weapon other than one referred to in paragraph (1)(A) may be conducted during any period covered by an annual report, but only if--
(i) within the first 60 days after the beginning of that period, the President certifies to Congress that it is vital to the national security interests of the United States to test the reliability of such a nuclear weapon; and
(ii) within the 60-day period beginning on the date that Congress receives the certification, Congress does not agree to a joint resolution described in subparagraph (B).
(B) For the purposes of subparagraph (A), `joint resolution' means only a joint resolution introduced after the date on which the Congress receives the certification referred to in that subparagraph the matter after the resolving clause of which is as follows: `The Congress disapproves the testing of a nuclear weapon covered by the certification of the President dated ______.' (the blank space being appropriately filled in).
(3) The President may authorize the United Kingdom to conduct in the United States, within a period covered by an annual report, one test of a nuclear weapon if the President determines that it is in the national interests of the United States to do so. Such a test shall be considered as one of the tests within the maximum number of tests that the United States is permitted to conduct during that period under paragraph (1)(B).
(f) No underground test of nuclear weapons may be conducted by the United States after September 30, 1996, unless a foreign state conducts a nuclear test after this date, at which time the prohibition on United States nuclear testing is lifted.
(g) In the computation of the 90-day period referred to in subsection (c)(1) and the 60-day period referred to in subsection (e)(2)(A)(ii), the days on which either House is not in session because of an adjournment of more than 3 days to a day certain shall be excluded.
(h) In this section, the term `modern safety feature' means any of the following features:
(1) An insensitive high explosive (IHE).
(2) Fire resistant pits (FRP).
(3) An enhanced detonation safety (ENDS) system.
SEC. 508. Notwithstanding any other provision of this Act, $5,000,000 of the funds appropriated in title I shall be available for the Central Maine Water Supply Project, to remain available until September 30, 1993, and to become available only upon enactment into law of authorizing legislation. This Act may be cited as the `Energy and Water Development Appropriations Act, 1993'.
Speaker of the House of Representatives.
Vice President of the United States and President of the Senate.
