(c) REQUESTS FOR PROPOSALS.—Not later than 120 days after the date of enactment of this Act, the Secretary shall issue a request for proposals for cooperative agreements—

(1) to obtain any license necessary from the Nuclear Regulatory Commission for the construction of 1 or more consolidated storage facilities;

(2) to demonstrate the safe transportation of spent nuclear fuel and high-level radioactive waste, as applicable; and

(3) to demonstrate the safe storage of spent nuclear fuel and high-level radioactive waste, as applicable, at the 1 or more consolidated storage facilities pending the construction and operation of deep geologic disposal capacity for the permanent disposal of the spent nuclear fuel.

(d) CONSENT-BASED APPROVAL.—Prior to siting a consolidated storage facility pursuant to this section, the
Secretary shall enter into an agreement to host the facility with—

(1) the Governor of the State;
(2) each unit of local government within the jurisdiction of which the facility is proposed to be located; and
(3) each affected Indian tribe.

(e) APPLICABILITY.—In executing this section, the Secretary shall comply with—

(1) all licensing requirements and regulations of the Nuclear Regulatory Commission; and
(2) all other applicable laws (including regulations).

(f) PILOT PROGRAM PLAN.—Not later than 120 days after the date on which the Secretary issues the request for proposals under subsection (e), the Secretary shall submit to Congress a plan to carry out this section that includes—

(1) an estimate of the cost of licensing, constructing, and operating a consolidated storage facility, including the transportation costs, on an annual basis, over the expected lifetime of the facility;
(2) a schedule for—
(A) obtaining any license necessary to construct and operate a consolidated storage facility from the Nuclear Regulatory Commission;

(B) constructing the facility;

(C) transporting spent fuel to the facility;

and

(D) removing the spent fuel and decommissioning the facility;

(3) an estimate of the cost of any financial assistance, compensation, or incentives proposed to be paid to the host State, Indian tribe, or local government;

(4) an estimate of any future reductions in the damages expected to be paid by the United States for the delay of the Department of Energy in accepting spent fuel expected to result from the pilot program;

(5) recommendations for any additional legislation needed to authorize and implement the pilot program; and

(6) recommendations for a mechanism to ensure that any spent nuclear fuel or high-level radioactive waste stored at a consolidated storage facility pursuant to this section shall move to deep geologic disposal capacity, following a consent-based approval
process for that deep geologic disposal capacity consistent with subsection (d), within a reasonable time after the issuance of a license to construct and operate the consolidated storage facility.

(g) **PUBLIC PARTICIPATION.**—Prior to choosing a site for the construction of a consolidated storage facility under this section, the Secretary shall conduct 1 or more public hearings in the vicinity of each potential site and in at least 1 other location within the State in which the site is located to solicit public comments and recommendations.

(h) **USE OF NUCLEAR WASTE FUND.**—The Secretary may make expenditures from the Nuclear Waste Fund to carry out this section, subject to appropriations.

SEC. 307. Notwithstanding section 161 of the Energy Policy and Conservation Act (42 U.S.C. 6241), upon a determination by the President in this fiscal year that a regional supply shortage of refined petroleum product of significant scope and duration exists, that a severe increase in the price of refined petroleum product will likely result from such shortage, and that a draw down and sale of refined petroleum product would assist directly and significantly in reducing the adverse impact of such shortage, the Secretary of Energy may draw down and sell refined petroleum product from the Strategic Petroleum Reserve.
Proceeds from a sale under this section shall be deposited into the SPR Petroleum Account established in section 167 of the Energy Policy and Conservation Act (42 U.S.C. 6247), and such amounts shall be available for obligation, without fiscal year limitation, consistent with that section.
