March 03, 2026

Mr. John Hill
Interim Director
Brookhaven National Laboratory
P.O. Box 5000
Upton, New York 11973-5000

Dear Mr. Hill:

I am pleased to inform you of the Office of Science's acceptance of the Earned Value Management System (EVMS) at Brookhaven National Laboratory (BNL). BNL executed a successful independent surveillance/EVMS acceptance review in September 2025. In September 2025, an independent surveillance/EVMS review was conducted based on the existing EVMS application at BNL. In January 2026, the BNL Management & Operating (M&O) contractor submitted a Corrective Action Plan (CAP) to address the Corrective Action Requests and Continuous Improvement Opportunities identified by the EVMS review committee. While the actions proposed and undertaken by the BNL M&O in the CAP were deemed acceptable and meet the requirements of the Electrical Industries Alliance -748, please continue to evaluate the issues identified in the CAP to determine how EVMS tools can be modernized and effectively leveraged to complement project management practices.

Sincerely,

**Jessica
