**RECORD OF CATEGORICAL EXCLUSION DETERMINATION**

**A. Brief Description of Proposed Action:**

The proposed actions under this generic CX include Strategic Partnership Project proposals (formerly known as “work for others”) that use government property, and actions from cooperative/collaborative research and development agreements (CRADAs) that result in the use of government property and expenditure of government funds at Brookhaven National Laboratory (BNL). The majority of the work involves development and completion of bench scale research. Most of the research occurs within the laboratories and research buildings onsite at BNL. Some research involves growth of agricultural plants in the ecology fields, ecological studies within the natural areas of BNL, measurement of atmospheric aerosols at various locations worldwide, and meteorological studies worldwide.
