

Angela Kou

Graduate Institution: Harvard University

Graduate Discipline: Condensed Matter Physics

Hometown: New York, NY

Relevant SC Research: Basic Energy Sciences

Research Interest:

I am interested in the physics of strongly correlated electron systems. I am currently investigating the fractional quantum Hall effect in GaAs systems and its applications to topological quantum computation. I am also interested in neural networks.

like to do yoga and take pictures. I'm not quite sure what I would like to do when I graduate but I would definitely like to continue doing research.

About Me:

I am currently a 4th-year graduate student in the Marcus Lab at Harvard University. I graduated summa cum laude with a B.A. in Physics from Columbia University. I am a member of APS and Phi Beta Kappa. In my spare time, I
