

# Sacha Abraham-Moire Verweij

**Graduate Institution:** Stanford University

**Graduate Discipline:** Applied Physics & Computational Mathematics

**Hometown:** Palo Alto, CA

**Relevant SC Research:** Basic Energy Sciences and Advanced Scientific Computing Research

**Research Interest:**

My research interests lie primarily in the intersection of applied physics with applied and computational mathematics. Since matriculating at Stanford I have been working in computational photonics, particularly on numerical methods for design optimization of photonic crystal structures.
